CAREER OBJECTIVE

MCA graduate with expertise in Machine Learning, Full-Stack Web Development, and Data Visualization. Skilled in Python, Java, C#, ASP.NET, React.js, FastAPI, and SQL Server with hands-on experience in AI-based applications, REST APIs, and cloud technologies. Strong problem-solving and analytical abilities with experience developing scalable software solutions and interactive dashboards.

TECHNICAL SKILLS

Languages: Python, Java, C#, C

Web: JavaScript, React , ASP.NET Web Forms, FastAPI

Databases: MySQL, SQL Server, PostgreSQL

DATA/AI: Machine Learning, LLM, Data visualization

Cloud/DevOps: AWS Cloud partitioner, Docker , REST APIs.

Tools & Platforms: Git, VS Code, Jupyter Notebook, NetBeans, SQL Server Management Studio(SSMS).

EXPERIENCE

Intern – Software Engineer
GLENTEC DIGITAL, Bangalore Oct 2025 – Jan 2026

- Extracted and cleaned raw data for analytics and reporting
- Built dashboards to visualize trends, insights, and workflow performance.
- Assisted in developing data pipelines for converting processed data into visual reports.
- Worked with React.js for frontend dashboards and FastAPI (Python) for backend APIs.
- Managed data storage using PostgreSQL and supported containerized deployment using Docker.

PROJECTS

Virtual Trial Room (ML-Based Web Application) — Computer Vision + Deep Learning

- Built an AI-powered virtual try-on platform for fashion accessories and apparel.
- Used GMM & TOM (VITON-HD) for garments; OpenCV & MediaPipe for accessories.
- Integrated frontend and backend services using FastAPI and RESTful APIs.

Water vs Non-Water Detection from Satellite Images using U-Net

- Designed and implemented a U-Net CNN architecture for semantic segmentation.
- Performed patch-based training (224×224) for memory-efficient learning.
- Utilized pixel-wise ground truth masks for supervised training.
- Evaluated model performance using IOU and Dice coefficient metrics.
- Created a complete deep learning pipeline for preprocessing, model training, and validation..

Travel Agency Website

- Designed a responsive travel booking platform with dynamic UI components.
- Added interactive banners, sliders, and dynamic UI using HTML, CSS, JS.
- Implemented booking form connected to MySQL database.

EDUCATION

Master of Computer Applications– CGPA: 8.5 2023-2025

Bangalore University, Bangalore

Bachelor of Science (PMCs)– CGPA: 8.0 2020-2022

NMKRV College for Women, Bangalore

Pre-University– 89.5% 2018-2020

Shri Siddaganga PU College, Davanagere

CERTIFICATIONS

Software Engineering Intern– Glentec Digital

AWS Cloud Practitioner (2025)

Introduction to Artificial Intelligence — Simplilearn

Machine Learning Using Python — Simplilearn
